

Calmodulin and Intracellular Ca⁺⁺ Receptors (Paperback)

Filesize: 5 MB

Reviews

Comprehensive information for book lovers. This is for all who statte that there had not been a worth studying. Its been printed in an remarkably simple way which is simply following i finished reading through this pdf where actually modified me, change the way i think.
(Rebekah Smith)

CALMODULIN AND INTRACELLULAR CA⁺⁺ RECEPTORS (PAPERBACK)

To read **Calmodulin and Intracellular Ca⁺⁺ Receptors (Paperback)** eBook, please click the button listed below and download the file or have accessibility to other information which might be in conjunction with CALMODULIN AND INTRACELLULAR CA⁺⁺ RECEPTORS (PAPERBACK) book.

Springer-Verlag New York Inc., United States, 2012. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.This volume is a collection of papers contributed by participants in the Symposium on Recent Advances in Ca⁺⁺ and Cell Function, Calmodulin and Intracellular Ca⁺⁺ Receptors, held in Kyoto, Japan, July 25-29, 1981. This meeting was one of the satellite symposia to the 8th International Congress of Pharmacology (Tokyo, 1981). Calcium ion is a well known intracellular messenger. Since troponin and calmodulin were found to be intracellular mediators of a number of actions of Ca⁺⁺, the functions of this ion, with relevance to its intracellular receptive proteins, have received a great deal of attention from workers in the fields of biochemistry, biology, pharmacology, physiology, endocrinology, clinical medicine, and related fields. The symposium was designed to illuminate new aspects of this rapidly growing field of research and extensive discussions on various topics were carried out. This volume contains all the papers presented plus the abstracts of the Poster Presentations. Both researchers and students should find the data and references of considerable value in their studies. We gratefully acknowledge the sponsorship of the Committees of the 8th International Congress of Pharmacology and the Yamada Science Foundation. We also thank Dr. S. Akabori for his encouragement and support. Special thanks are extended to Ms. S. Ikukawa, Ms. A. Yoshikawa, M. Ohara and all our colleagues who contributed much to the symposium. We also extend our appreciation to Mrs. F. Comes and Patricia M. Vann for the editing and preparation of the manuscript in its final form. Softcover reprint of the original 1st ed. 1982.
