BRAND NEW PRINT ON DEMAND., Environmental Health Engineering in the Tropics: An Introductory Text (2nd Revised edition), Sandy Cairncross, Richard G. Feachem, Environmental Health Engineering in the Tropics An Introductory Text Sandy Cairncross UNICEF/WHO Interagency Team for Guinea Worm Eradication, Ouagadougou, Burkina Faso Richard Feachem Dean, London School of Hygiene and Tropical Medicine, London, UK Many major infectious diseases in tropical and developing countries are amenable to control by environmental measures. This book describes these infections and the measures that may be used effectively against them. The infections described include the diarrhoeal diseases, the common gut worms, guinea worm, schistosomiasis, malaria, bancroftian filariasis and other mosquito-borne infections. The environmental interventions that receive most attention are domestic water supplies and improved excreta disposal. Appropriate technology for these interventions, and also their impact on infectious diseases, are documented in detail. The book is intended both for those from an engineering background and those whose training is in medicine or public health. The second edition has been extensively revised to incorporate the lessons learned from the International Drinking Water and Sanitation Decade (1981 1990). These have included technical advances, particularly regarding composting, the safe...
